

You can use our website without disclosing your personal data. You are not required to provide personal information as a condition of using our website, except as may be necessary to provide you a product or service at your request. When you visit our website, RC collects technical data including the name of your internet service provider, the website that you used to link to our website, the websites that you visit from our website and your IP-Address. This data could possibly lead to your identification if combined with other information that would identify you, but we do not use it to do so. We do use the data from time to time for statistical purposes, but maintain the anonymity of each individual user so that the person cannot be identified. Aggregated, statistical or de-identified data is not personal data. By using this website or other Services and by voluntarily submitting your personal information to us, you are consenting to the practices in this Privacy Statement and any applicable terms of use. We only collect personal data when you provide it to us, through registration, completion of forms or e-mails

IP Addresses: We may collect your IP address when you visit our website to help us diagnose problems with our main computers, to administer the website and system, to report aggregated information to our partners, to assist in marketing practices and to audit the use of our website. We do not normally link IP addresses to anything personally identifiable. In limited circumstances, we may use IP addresses to help us identify you when we feel it is necessary to enforce compliance with our General Conditions of Use or to protect our Services, website, users or others.

Analytics: RC uses third party analytics service providers, such as Google and Adobe and other, to help better understand how visitors use our website. These technologies may record information such as how often you visit our website, which pages and features you frequent, aggregated use and performance data. This data may be aggregated and analyzed to help RC provide you with a better online experience.
